

I'm going to the St. David's Center

get out and grow!

Fall Festival and Walk N' Roll

When I get there, I will walk to the balloon arch to enter the festival.

When I get there, nice people will say “Hi!” to me and hand me a bag.

I will get a special bracelet that will let me do fun things at the festival.

There will be a table where I can check out headphones if I need them.

When I enter the festival, I will see a food truck, a van selling coffee, a pizza stand, and a row of people selling things.

There will be other kids and adults at the festival. I can say “Hi” to them.

There are lots of fun things that I can do at the festival. Some things I can do are gardening, face painting, or playing on the playground. I can ask the adult with me to help me pick things that I would like to do.

I might have to wait in line to do some activities. If I don't want to wait in line, I can ask the adult with me to help me find another activity.

If I need a break during the festival, there is a space near the balloon arch where I can take a break.

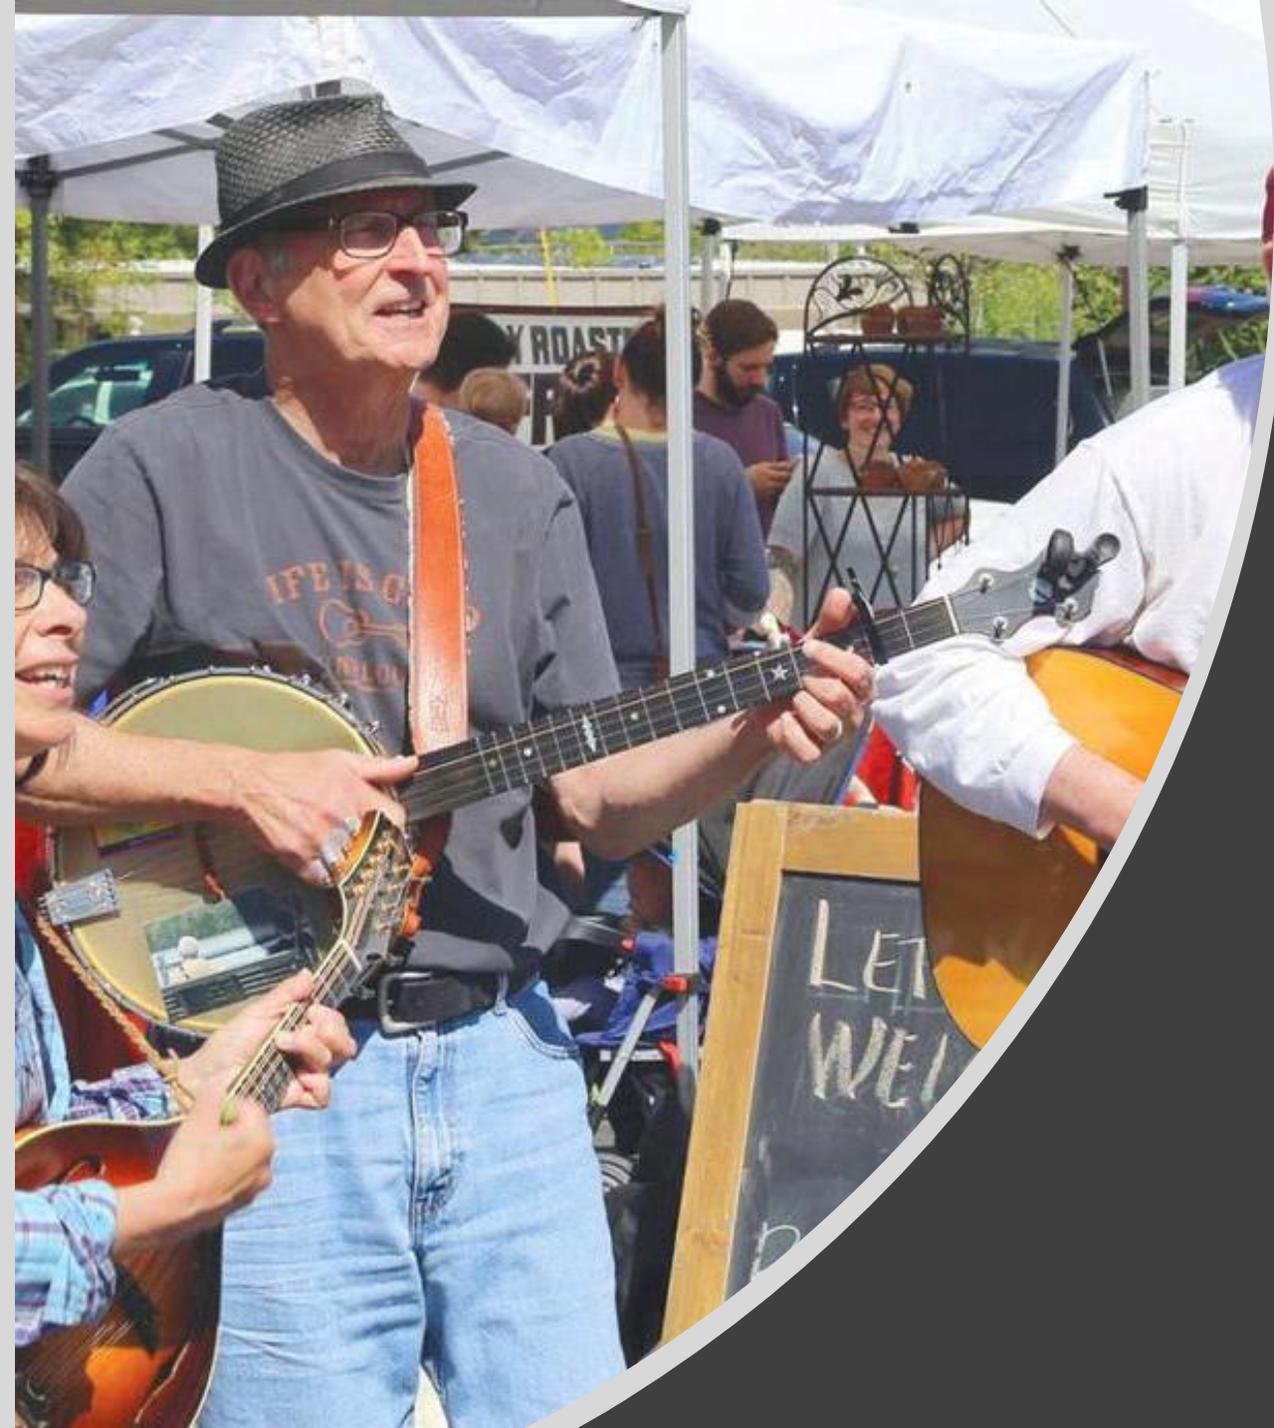

There will be animals at the festival. I can look at them or touch them if the adult with me says it is okay. Sometimes animals smell different or make funny noises.

At the festival I  
can also take a  
walk in the forest.

If I need help finding something when I am at the festival, I can look at the map or I can ask someone in a green shirt to help me.

I will walk by people playing music. I can stop and dance and clap if I want to.

I can leave the festival whenever I and the adult with me are ready to go. We will walk through the balloon arch and go back to our car to head home.
